SATURDAY MORNING, OCTOBER 13, 1866.

"Question of Privilege."

It appears that the "question of privilege" has been made use of by certain members of the Legislature to relieve themselves of the bile which was engendered in their honorable stomachs by certain strictures of the OREGONIAN in reference to some of their Legislative acts. The methods of retort which these honorable members have chosen are no doubt well suited to their peculiar turn of mind and habits of thought; so we don't know that we have anything to complain of. When an honorable member says that a statement which has been made is "a lie," we know not which to admire most, the brevity or the conclusiveness of his argument. When he states that he did not vote for a certain person for Senator "because that person was not his man," we are bound to believe him, seeing that by his participation in the caucus, he was pledged in honor to vote for him and finally refused to do so. Further, we are ready to believe that he is "in the habit of doing as he pleases"; for how else could we account for his strange perversity of conduct? When another gentleman felicitously remarks that our censure makes him "feel as the man did when the jackass kicked him," we must beg to express our admiration of the originality of the metaphor, and to suggest that it must have been derived from real incidents of the kind, of frequent occurrence in the gentleman's daily occupations. And now, having given these gentlemen proper credit for their intentions, and having expressed our admiration of the rare and peculiar talent for retort that they have displayed, we beg at this stage of the discussion to rise also to a "question of privilege," and tell them and all others who were engaged in the late schemes of disorganization at the Capital, that their conduct has been and is still as heartily reprobated by the Union party as it has been censured by us. And more: if these persons or any of them, ever seek office again at the hands of the party they have outraged, they will quickly ascertain what their standing in that party is. And with these remarks we leave the argumentative gentleman aforesaid, and the metaphorical gentleman above alluded to, with their associates and coadjutors in their factious schemes, hoping that they will not hesitate to rise to a "question of privilege" as often at least as they feel the slightest inclination to do so.

The Last Telegraphic Canard.

The gold gamblers of New York have perpetrated a trick which is quite equal to some similar operations of theirs during the war. They got up a dispatch on the 10th inst., containing five questions purporting to have been sent by the President to the Attorney General, had it published in a Philadelphia paper and telegraphed it to all parts of the country. This dispatch was such from its nature, as to create a profound sensation, and it does not appear that anybody at first discredited it. Nobody knew what folly Johnson might commit, and from his course hitherto, it was but natural that this bogus dispatch should be believed. On numerous occasions he has shown as great a want of sense as he would have exhibited had he actually propounded these five questions. No indiscretion he could commit would surprise anybody. The gold speculators, taking advantage of this fact, succeeded in perpetrating their reprehensible trick, and no doubt "realized" largely by it.

The Oregon Central Railroad

We publish to-day the special message of Governor Woods to the Legislative Assembly in regard to the Oregon Central Railroad. The main features of this important scheme were given by us several days ago, so we need not repeat them here. If the State shall determine to aid the enterprise, it will probably do it by guaranteeing the interest on the bonds of the Company, in the manner spoken of in this paper the other day. That seems to be the most feasible plan yet suggested. The message of the Governor is earnest and forcible, and makes a strong statement of the necessity that demands the construction of the road.

A late Cincinnati dispatch gives the particulars of an amusing occurrence that took place at the President's reception in that city:

General Grant was standing engaged in conversation with some one unknown to him, when John Hogan, of St. Louis, approached him, and said: "General Grant, I want to introduce you to a friend of yours, the correspondent of the *Cincinnati Enquirer*," to which the General promptly replied, "I have no stock in that paper, and don't want to have any friends connected with it." Hogan interposed and said, "Well, but it is a personal friend of yours." When the General said, "Well, I want to be friendly with every one, but don't want my friends connected with that paper." Hogan then said in great astonishment, "Well, but you are talking with the editor." "Am I," said General Grant, "I did not know that; but, at any rate, I have nothing to apologize for. I have avowed my opinion of that paper before, in an official capacity, and I am of the same opinion now." John and the gentleman then retired.

The Union soldiers of Michigan made a grand demonstration at Detroit lately. Among the sentiments they expressed was the following:

It will be time enough to proclaim peace, when a Union soldier can visit the graves of comrades, and the fields of his victories, wearing the Union blue, and carrying the old flag, secure from public violence and private swearwinning, and without a padlock on his lips, or a cover over his loyal heart.

The President has issued a proclamation abolishing martial law and declaring that the country is at peace; yet a sentinel paces his usual beat in front of the door of the Secretary of State, just as if the war were in progress. Perhaps A. J. has forgotten to relieve him.

On the 21st of the present month West Virginia will elect a Governor, three Congressmen and a Legislature. On the 6th of November elections will be held in New York, Massachusetts, New Jersey, Michigan, Illinois, Wisconsin, Minnesota, Missouri, Kansas, Maryland, Nevada, and Delaware.

Can anybody perceive what advantage has been derived by the Democracy from the "broad-and-butter" coalition? Two years ago the Democrats went alone, and unaided, were beaten no worse than they are beaten now. Where are the gains which their prophets foretold?

In the next Congress the Union party will have at least forty Senators. There will be a gain of one from Oregon, one from California, one from Pennsylvania, one from Kansas, one from Tennessee and one from New Jersey.

Johnson has commissioned "Col." Seville, late of the rebel army, a Captain in the army of the United States. No doubt this whilom "Colonel" and now Captain, supports with all zeal the "no-bis reconstruction policy of Andrew Johnson."

The *Advocate* makes a caustic remark about the late action of the House in passing censure upon a Senator. It says:

The House, in its wisdom, has taken the responsibility of "censuring a member of the Senate! It may seem to expel him before the session closes.

STATE ITEMS.

The editor of the Vancouver *Register* has just visited St. Helens, and says that many substantial improvements have been made there this season. Large and commodious stores have been erected, and several private dwellings and other houses are in process of erection. Messrs. Cohen & Co., well known firm in Portland, have established a branch business at that place in connection with J. W. Woodward; Messrs. Williams Brothers, an enterprising firm, contemplate the erection of a new wharf, and are also associated with lumber parties, who will, in all probability, build a new steam saw mill in the town. The location of St. Helens is favorable for a lumber market, being situated on the bank of the Columbia at the confluence of Willamette Slough, Scappoose Bay, Lewis river and Lake river, the banks of which streams abound with good timber of all descriptions, and timber rafts on these streams are carried naturally by the current to the site selected at St. Helens for a saw mill. St. Helen Lodge, F. and A. M. are building a fine two story hall, the lower portion of which will probably be used as a Court House for Columbia county.

OREGON LEGISLATURE.

Fourth Regular Session.

Senate.

[*Supplement to Wednesday's Proceedings.*]

S. B. No. 21, to provide for the registration of voters, being up on its third reading—

Mr. FORD said the gentlemen on the other side have given their reasons pretty fully for voting for this bill, and I think it therefore proper to state the reasons why I vote against it. I have lived in this country and on the frontier for twenty-three years, and have seen something of the operation of election laws and the difficulties in the way of a free exercise of the elective franchise. Those difficulties have always been great enough, and I have heard nothing in the arguments of the gentlemen to persuade me to vote for this bill, which will only increase them. As I said before, I have lived in this country for twenty-three years, and in that time have taken some lessons of a sort of wise people—I mean the Yankees—who always enquire when about to do anything, "will it pay?" I have heard that that class of people will spell a knife with two bits in skinning a flint, and when they have got the skin off have only made a cent, and found that it did not pay. The same class, finding that skinning flints did not pay, then went to making wooden nutmegs and wooden hams, from which they made considerable money. The constitution prescribes certain things, this bill prescribes something more. Now, when I look at this last and see all the machinery and how many new offices it creates, and that all these officers must be paid, I am led to enquire "how much will it cost?"—and whether it will pay. And in examining this question that in the State there are twenty counties, and each county has, on an average, ten precincts; each county must have a board of registrars and each precinct must have a registry agent. Twenty counties with ten precincts each gives a total of two hundred men, who will be required to act at least two days each. At $3 per day, this would amount to $1,200. The expense to each voter would be one day spent in getting himself registered. There are 40,000 voters, and at $2 per day, this would amount to $20,000. The total amount which it will cost the people of this State to get registered, is $21,200. Twenty-one thousand two hundred dollars is the sum which the people of this State will have to pay for being relieved from the Lamb's back of the—but with a sight of high heaven that I will never vote for any such bill and, sir, I will in my place in this Senate, say that I wish this bill and all other such bills may go to the bottomless pit—that this bill may remain here forever—they remain right here in Marion county forever! The speaker ended in a very excited manner and pounding emphatically upon his desk. Sensation and laughter.]

Mr. DAILEY. I hope the gentleman from Umatilla will not get excited. I think it unfair in that gentleman to first have the Jews circumcised and then ostracised. I am unable to find any objection to this bill either on the ground of expense or time. And among my constituents, men of all political parties, I have not expressed their desire for a fair registry law and their opinion that some sort of a registry law is necessary to preserve the purity of the ballot. This bill seems to be about the best that we can get, and I am in favor of expending $1,200 for the purpose of having a law to prevent the rebels coming to this State from voting. I would never voluntarily consent to let rebels who tried to destroy this Union come here and live, and have civil rights like the rest of us, that is all they ought to have. The oath in this bill is right and ought to remain, and the bill ought to pass.

Mr. HUNNEWELL. I desire to say a few words in explanation of my reasons for voting for this bill. Its constitutionality has been doubted; I have no doubts on that question. The people of this State need such a law. Two years ago, at the election at the Dalles, after sundown—after all the legal votes in the precinct had been cast—three hundred men came down the Columbia river into the town and voted. Nobody knew a man among them. They were strangers, and the next morning every one of them left for California. In another precinct which numbered but eight legal voters all told, eighteen men came in in one crowd and voted, not withstanding they were all strangers, and were every one of them challenged. I stood by the polls and challenged them myself. They were all strangers; no man in the precinct knew one of them. They might have been voters for State officers or they might not; there was no means of knowing. These instances are sufficient to show the need of a registry law—a law to prevent the perpetration of such frauds. Without such a law you can see that all along the Columbia river, and places on the line of travel to and from the mines, people can come into the State from all the adjoining territories and vote illegally. This bill will prevent such frauds, and is the only means I know of to protect the legal voters of the counties bordering on the Columbia river and the mines. I believe the bill ought to pass.

Mr. DOLPH replied to the "cost" argument of Mr. Ford, showing that all probable expense would be compensated or more than compensated by the increased revenue from poll-taxes, which, under the bill, will be paid, and which are usually delinquent.

Mr. CRANSTON. Self-preservation is the first law of nature. This law is acknowledged everywhere among all people. If a man can't vote he has no right to defend himself, and even to take the life of my assailant, if necessary, to save my own. The Government has the same right. It has the right to live, to protect itself, to disarm its enemies. It has the right to disarm its assailant either armed with knife, pistol, musket or bullet. This bill proposes to protect the State and disarm its enemies. It has the right to do it.

Mr. HINSDALE did not care to speak as to the merits of the bill. He contented himself with poking some sharp thrusts at Mr. Ford as to his acquaintance with flint-skinning Yankees and wooden nutmeg dealers.

Mr. JEFFRIES followed in a brief speech, saying that he was not opposed to *all* oaths as some of the gentlemen seemed to understand him, but was opposed to the oath in this bill. He referred again to the correspondence between Madison and Hamilton, and stated that notwithstanding the opinion of Madison, that a ratification of the Constitution must be unconstitutional to be a ratification, New York did ratify the U. S. Constitution conditionally, reserving the right to withdraw from the Union.

Mr. HUSTON said he had lived in a number of Northern and Southern States, and had never known a registry law nor any necessity for one. As to somebody's corns being pinched, he did not feel his corns hurt. The Democracy had governed this State and the United States for a considerable proportion of their existence, and he had never known the Democracy to ask for a registry law. We do not write to be translated, he believed, but by opposing this bill, but oppose it because we believe it is wrong in principle and will be burdensome in operation.

[Here the vote was taken as reported yesterday.—REPORTER.]

Senate.

THURSDAY, Oct. 11, 1866.

Prayer by Rev. H. H. Spalding of the Congregational Church.

ANNOUNCEMENT OF ELECTION NEWS.

Immediately after the reading of the journal, Mr. CARTWRIGHT arose and asked the privilege of announcing the substance of a telegram, just received from Portland, Pennsylvania has gone Union 20,000 and elected eighteen Union Congressmen; Ohio 50,000 Union, and seventeen Union Congressmen; Iowa and Indiana, ditto.

REPORT FROM A STANDING COMMITTEE.

Mr. JOHNSON, from the Judiciary Committee, to whom was referred S. B. No. 2—To amend an act to provide a code of civil procedure, approved Oct. 11, 1864—reported a substitute, which was adopted.

REPORT ON INSANE ASYLUM.

Mr. CARTWRIGHT, from the joint committee to visit the Insane Asylum, reported that the committee had visited that institution and were agreeably surprised at the order and good condition in which they found it. The central or old part of building has now assumed the proportions of a three story frame, well ventilated and lighted. The wing has been built and the old one made to conform to it in every particular, and both furnished with all the modern improvements. There are in the institution, eleven wards, each with a bath room; and a total of one hundred rooms, each well ventilated and warmed, the stoves being secured by iron grates for safety of the inmates. The supply of water for use in the Asylum is furnished from a reservoir at the top of a tower eighty feet in height. The entire household, including patients and attendants, numbers one hundred and twenty persons. The committee found the institution orderly, well and cleanly dressed, and, as far as they could judge, properly treated. The committee had heard it intimated that the proprietors had been guilty of a violation of their contract in some respect and had, in consequence of that, waited some time before reporting, but had satisfied persons of the time of the committee's meetings, but had received no proof of such violation, and the committee therefore presumed that there had been no violation of the contract.

A QUESTION OF PRIVILEGE.

Mr. STEARNS. Mr. President, I never was inclined to discuss questions of a purely personal character, except in the proper place and before the proper forum. My attention has been called to two or three articles which I had proposed and still propose to settle in another manner and place, but when public journalists so far forget their obligations as to traduce private character and vilify public men outside of their public acts, it is sometimes proper that they should receive a just and adequate rebuke. I conceive it to be a duty I owe to the intelligence and dignity of this body, to the honorable Executive of this State and to the people of Grant county, to say that every word of the article in the *Oregon Herald* of the 29th of September last, under the head of "More Legislative Villainy," is absolutely and unqualifiedly untrue in every particular as to myself. It is maliciously false as to the action of this honorable body, in every conceivable point. [Here Mr. S. read a portion of the article.] The article of the 30th of this month in that paper purporting to be from a correspondent signing himself "Jones," and which was published in that paper without editorial comment, and charging upon Gov. Woods and Messrs. Brents, Stearns, Adams, Hill, Zells and Whitten, that they held "consultations in hidden places," in relation to the Grant county election, is a wilful falsification in every conceivable particular. Mr. President, little did I think when I heard upon the streets of this city, your proud Capital, and in the very building that I was to-day assisting, that the "Joneses" were on it! But when I find it announced in the authoritative and duly accredited *Herald of Treason* of this State, and republished that not only myself but our noble and high minded Governor and several other respectable citizens, were to be made a unofficial feast for traitors, then, and not till then, did I correct or design to notice in any public manner, the assaults made upon me in the columns of a miserably venal newspaper. Sir, it may be well to know who this individual is, who holds forth in this manner. Who is it that claims to be the presiding genius of this *Herald of treason*, in Portland, Oregon? Is he the British Brown that once was a member of the band of "forty thieves," in the State of Wisconsin, and who left his country for his country's good? Can this be the man whose press was destroyed and he forced to flee the loyal, generous and magnanimous city of San Francisco, to our sister State, to save his miserable carcass from the vengeance of an outraged populace, because he had preached treason and plotted over the assassination of Freedom's greatest martyr—Abraham, Lincoln? Is he the man—because he thinks himself safely cantoned in the emporium of our noble State—who is allowed to assail the character of this body and of the Executive of the State? Answer, ye saints! These are men who never aspire to hatred—who never rise above contempt." Is he one of them? "What bird is clean that fellow birds devour."

Mr. President, I say to you here in the presence of this honorable body, that I shall attempt to go to my home in Grant county as soon as the duties of this session are ended; and if the edict of the "Joneses" is to be carried out, if they are to consummate their career in the inauguration of civil war here, and plunge your fair State in brothers' blood, and lay your fertile valleys in desolate waste; destroy the peaceful homes and hearths and aspirations of all your patriot people, then it is befitting that I, too, must fall. In the brilliant sun of the nineteenth century, a martyr for the fearless advocate of free thought and free consulting principles, and free institutions in free, enlightened, Republican America, I ask no more glorious end—I covet a no more enduring fame.

INTRODUCTION AND FIRST READING OF BILLS.

S. B. No. 2—To amend the Civil Code as to the manner of serving process—substitute for the original bill. Read second and third times, under a suspension of the rules. Passed—17 to 4.

Mr. DOLPH introduced S. B. No. 39—To provide for the appointment of a commissioner of emigration. Read first and second times and referred to the special committee on emigration.

Mr. JOHNSON—S. B. No. 40—To amend the act for registration of separate property of married women.

Mr. JOHNSON—S. B. No. 41—To amend the act relating to the assessment and collection of taxes.

SECOND READING OF BILLS.

The following bills were read a second time:

S. B. No. 18—For the relief of G. W. Lattimer. Appropriates $311, for pay as recruiting officer in 1865. Referred to Committee on Claims.

S. B. No. 22—To establish the Oregon Medical College.

S. B. No. 30—For the relief of Baker county. Referred to the Committee on Claims.

THIRD READING OF BILLS.

The following bills were read a third time:

S. B. No. 19—For the relief of Mary Jane Hart. Passed—18 to 2.

The Senate adjourned.

AFTERNOON, 2 O'CLOCK—SECOND READING OF BILLS.

S. B. No. 31—Donating certain railroad lands to the Willamette Valley and Cascade Mountain Wagon Road Company. Passed—18 to 2.

S. B. No. 32—To establish the Oregon Medical College. Read third time and referred to a select committee—Messrs. Jeffries, Bayley and Cartwright.

S. B. No. 35—To amend the charter of the city of Salem. Passed—16 to 3.

COMMITTEE OF THE WHOLE.

On motion of Mr. CARTWRIGHT, the Senate resolved itself into committee of the whole, for the consideration of S. B. No. 20—To reorganize the militia. Mr. Hinsdale in the chair.

Mr. CARTWRIGHT offered an amendment—to strike out all after the enacting clause, which was adopted.

The committee rose, reported progress, and asked and obtained leave to sit again.

PETITION OF DR. H. F. BROWN.

Mr. JEFFRIES moved to take from the table the petition of Dr. H. W. Brown for a charter for a Medical College, which was agreed to.

Mr. DOLPH moved to refer the petition to the delegation from Marion County.

Mr. BROWN moved to amend—to refer to the medical members of the Senate.

Mr. CRAWFORD moved to indefinitely postpone the further consideration of the petition, which was not agreed to.

Mr BROWN'S motion to amend was not agreed to, and then the motion to refer to Messrs. Cartwright and Brown prevailed.

The Senate adjourned.

House.

House met at 8 o'clock A. M. Quorum present. Prayer by Rev. Mr. Williams. Journal read and approved.

[NOTE.—There is an omission in the report for yesterday evening: A Senate joint resolution to pay the mileage and per diem of members of the Legislature was concurred in. The H. J. R. authorizing the Governor to call out a military force to protect the citizens of Eastern Oregon, unless the General Government shall furnish such protection within a reasonable time, subject to the discretion of the Governor, was returned from the Senate with an amendment striking out the words "a reasonable time" and insert "thirty days." The amendment was adopted. Mr. Humason asked and obtained leave of absence for two or three days.—REPORTER.]

THE POLK COUNTY CASE.

Mr. HENDERSHOTT offered a resolution requiring the questions to witnesses to be put through the attorneys in the case, which was adopted.

Mr. GARLICK announced that Mr. Upton would act as attorney for Mr. Dodson.

The trial of the case was then gone into and during the forenoon fifteen witnesses were examined.

At 12:10 M., on motion adjourned to 1 o'clock P. M.

AFTERNOON.

During the afternoon a great many witnesses were examined.

Mr. UPTON, at 4 o'clock P. M., stated the positions which he proposed to maintain upon the questions of law involved in the suit, viz: the Governor's pardon restores to the convict all his former rights and offices; 2. That the question of residence is to be decided by the intent of the party, his acts being consistent therewith; 3. that parol evidence is not sufficient of naturalization. He claimed a majority over all doubtful votes of ten or twelve for Dodson over Dempsey.

Hon. B. HAYDEN, attorney for the sitting members, argued this case in detail, occupying an hour in presenting it. He controverted the first and third points of law as above stated. As to the latter point, he claimed that the pardon affects the sentence only—the punishment. He averred that under Sec. 3 of Art. II. of the Constitution of Oregon, a person once convicted of a crime can never thereafter exercise the right of franchise. Against the third point he urged precedent and practice. There is no law requiring the voter to produce his naturalization papers at the polls, and therefore his oath is sufficient. He claimed a majority of from 4 to 13 for Mr. Hall over Mr. Dempsey.

Mr. UPTON reviewed the testimony, and applied the rules of law to the several cases. He spoke forty minutes. He argued that the pardon places the man precisely in the same position politically that he occupied before conviction, and that consequently the constitutional prohibition was no longer applicable. He favored the third proposition he referred to the decision of Judge Deady, with the decision of Chief Justice Moore, of California, and to the history of all law on the subject.

At 5:40 P. M., on motion of Mr. WORTH, adjourned to 7 o'clock.

EVENING.

Mr. WORTH asked leave of absence for the remainder of the session. Granted.

Mr. COLLINS spoke half an hour in advocacy of his right to the seat occupied by Mr. Hall. He reviewed the testimony and claimed a majority of 18 votes. He asked a seat on the floor, not from any personal motives, but in justice to the majority of the people of Polk county. [Want of time prevents a resume of this interesting debate.—REPORTER.]

Mr. HAYDEN replied in a speech of fifteen minutes.

Mr. OLNEY moved that Mr. Hall be allowed to present his case as fully as he might wish, which proposition was conceded by general consent.

Mr. HALL then stated his case, and said he was willing to submit it to the decision of the House. He only wanted justice.

Mr. OLNEY argued the case briefly, claiming a majority of two for Collins.

Messrs. GOLD and COCHRAN argued in favor of the sitting members.

Mr. DEMPSEY expressed himself as willing to trust his case with the House. Hethought himself clearly entitled to his seat. [At any rate he had occupied it so far, by no fault of his own, but by virtue of a certificate from a judicial clerk.

Messrs. UPTON and WORTH made additional remarks, the latter in favor of the sitting members.

The question on the proposition declaring Mr. Hall not entitled to his seat resulted as follows:

YEAS—Messrs. Cole, Davis, Day, Garlick, Herman, Hinman, Lamson, Laughlin, Lucy, Lockhart, Melvin, Nicklin, Olney, Parris, Roland, Starkweather, Stouffer, Upton, White and Mr. President—22.

NAYS—Messrs. Avery, Baird, Cochran, Cox, Dodge, Foudray, Gehr, Hendershott, Helm, Hindman, Kinsely, Lockhart, Loring, McCoy, Moore, Olney, Ross, Rosenheim, South, Wells, Whitcaker, Wilmer, Worth and Mr. Speaker—21.

Mr. GINGLES voted blank, having paired off with Mr. Humason.

The resolution was declared adopted.

The question was then taken upon the admission of Mr. Dodson, and resulted as above with the same announcement.

Mr. DODSON was sworn in and took his seat.

Mr. UPTON offered a resolution to postpone the day on which oaths may be introduced till Monday next.

Mr. HELM demanded a call of the House.

Much confusion arose from the anxiety of members to adjourn.

Mr. HALL arose to a question of privilege, and stated that his name had not been called upon the vote relative to Mr. Dempsey. His vote would make a tie vote and kill the resolutions, thus retaining Mr. Dempsey in his seat.

This announcement created much confusion, pending which, on motion of Mr. Whitaker at 10 o'clock P. M. adjourned.

INVITED TO VISIT NEW ORLEANS.—The following invitation to Johnson to visit New Orleans was signed by S. F. Monroe, the rebel Mayor whom Sheridan charges with the murders of the 30th July, by S. B. Buckner, rebel General, by Pierre Soule, one of the original rebel conspirators and sundry other rebels, great and small, in that city. The invitation is dated September 8th. It is not surprising that the rebel murderers of New Orleans should have been anxious to receive a visit from their honored patron:

To His Excellency Andrew Johnson, President of the United States, Liudell House, St. Louis:

The citizens of the State of Louisiana and city of New Orleans, have the highest pleasure in most cordially inviting your Excellency to so extend your present trip through the country as to include our State and city. The people of Louisiana, whose cause, in common with that of the entire country, you are defending by your consummate ability, and for whose welfare you stand the recognized and fearless champion, earnestly desire, in thus extending to you a hearty welcome to the Capital of their State, to demonstrate to the President of the United States their exalted and reverent appreciation of his acceptable services rendered in behalf of a re-united nation. We desire to see and confer with the standard-bearer of American statesmanship and to hear his noble eloquence. Looking to the permanent reconstruction of the Union and the salvation of constitutional liberty on this continent, at the North as well as the South, so may the Southern commonwealth be saved as their people shall gather affectionately around your administration of the Government, encouraging alike by their counsels and support.

PORTLAND ACADEMY AND FEMALE SEMINARY.—Pupils are admitted at any time and are charged only for the remainder of the Quarter.

Legislative Proceedings.

SALEM, Friday evening, Oct. 12.

Upon the adjournment of the House last night it was discovered that a mistake had been made in the tally of the vote on the resolution to oust Dempsey and admit Dodson. Instead of being 22 to 21, as announced, the vote stood 22 to 22, thus defeating the resolution. The forenoon was entirely spent in correcting the journal. Dodson was sworn in last night, but upon the correction of the journal to-day he vacated the seat and Dempsey resumed it. No other business of importance in either House.

"IT IS THE PEOPLE'S BUSINESS."—In August, 1864, the prospect of the Union party in reference to the Presidential election became very gloomy. A friend—the private secretary of one of the Cabinet Ministers—who spent a few days in New York at this juncture, returned to Washington with so discouraging an account of the political situation that after hearing it the Secretary told him to go to the White House and repeat it to the President. My friend said that he found Lincoln alone, looking more than usually careworn and sad. Upon hearing the statement he walked two or three times across the floor in silence. Returning, he said, with grim earnestness of tone and manner, "Well, I cannot run the political machine; I have enough on my hands without that. It is the people's business—the election is in their hands. If they turn their backs to the fire and get scorched in the rear, they'll find they have got to sit on the blister."

PERSONS INTENDING TO VISIT THE STATE FAIR should not fail to supply themselves with a suit of that excellent clothing now on sale at the ST. LOUIS STORE, NO. 111 FRONT STREET. THE LATEST STYLES OF DRESS AND BUSINESS SUITS are to be had there at the LOWEST PRICE. Do not fail to purchase from this extensive stock, as they are worn universally by everybody at the Fair. Messrs. KOHN & FISHEL are up to the times, and a call will satisfy you.

The Graefenberg Company's Uterine CATHOLICON does not contain one particle of calomel or mercury, and cases of Female Complaints which require other treatment than the Catholicon are extremely rare. It should be used in all cases of Deranged Monthly Periods, Weakness, Irregular Appetite, Nervousness, Headache, Disturbed Sleep, Acid Stomach, Nausea, Indigestion and Pains and Difficulties connected with the Uterine Organs.

THE UTERINE CATHOLICON

Is a most successful remedy for Gravel and all affections of the Kidneys and Bladder, while in the troublesome symptoms attending Pregnancy, the benefits of the Catholicon are most remarkable. It is a perfect restorer of functional and general health from whatever cause, to the turn of life, and those patients who have used the GRAEFENBERG COMPANY'S UTERINE CATHOLICON find difficulty in expressing their thankfulness for the beneficial effects of this wonderful remedy.

THE WEEKLY OREGONIAN is published this morning. It contains the latest telegraphic news from the East and California—a selection of the best articles appearing in THE DAILY OREGONIAN,—full and reliable news from the Mines, and the most copious commercial information published by any paper in the State.

The average amount of reading matter in the WEEKLY OREGONIAN is double that published by any other journal in Oregon; and in the particular of Commercial statistics and the Markets we aim to make it the most reliable, more especially in matters pertaining to Oregon interests.

Single copies 12½ cents, or $3 00 per year, to any part of the United States, or British Columbia.

PASSENGERS BY THE PACIFIC.—The following is a list of passengers by the steamship *Pacific*, Wm. Metzger Commander, which leaves Portland this morning at 7 o'clock for San Francisco direct: M. Seller, wife and servant, Mrs. Staples and two children, Wm. Lord, wife and child, Mrs. Rees, wife and four children, A. S Gray, wife and child, Mrs. Kelly and three children, Mrs Palmer, Miss A Kohlmeyer, wife and three children, Mrs Palmer, Miss A Palmer, W W Chapman jr, I Vogelsdorff, S L Stone, Mrs. W Hitchcock and child, Miss S Button, Miss F Sans, Mrs. W Hitchcock and child, Miss S Button, Miss F Sans, Mrs. J McCarty, S F Farmer, J McGhin, M Tucker, wife and daughter, D Hart, I Selbos, H Bertstein, H Rogery Cop, Van Loancke, G W Crampton, J Bladman J E Welch, C S Allen and wife, A Thompson, A Chambers, Mrs. Welch, H Durell and wife, I T Elliott, Wm A H Lindeman, H Durell and wife, I T Elliott, Wm Kelley, Mr. Brooks, Mrs M A O Grubb, A Mountcastle, J Lack, Stephen P McDonald, Henry Wile, D H Hoadley, Mrs Hunt, Mrs J Sutton, G Gunbach, Mrs M G Rosemary, Mrs. Hunt, Mrs J Sutton, G Gunbach, Mrs M G Rosemary, Mrs. Hunt, A Fisher, C M Herk, J Langdon, I H Raymond, I F Russell, S McKenzie, J Selling, C B Magan, and J Fargo (messenger), and 78 others.

SINCERE.—A singular instance of canine eccentricity was noticed in this city. A dog belonging to Gen. Wright at Vancouver is the subject of this sketch. He is a general favorite at the garrison, and is perfectly at home there, yet when he is in any way imposed upon, he leaves the house straight, goes to the steamer landing and gets into the Fresno and comes to this place, probably to get the sorrows and injuries in the hum and bustle of huge thoroughfare—he is perfectly *au fait* in all matters pertaining to life, and stays here until some cause him to leave. He has old quarters, when he again takes the boat and is off for a change. He seems to know that the whistle of the boat is the signal of her departure and never aboard without a thought of missing luggage.—*Bulletin*, 8d.

THE FRESNO.—The steamer *Pacific* takes the following freight: 225 quarter hams and bacon, 342 sks flour, 150 sks bran, 20 sks oats, 50 cases bitters, 35 pkgs eggs, 101 sks potatoes, 25 bbls dried apples, 6 pkgs matches, 10 bbls pickles, 65 bbls salmon, 100 dry hides, 25 bales sheep skins, 4 bales wool, 9 rolls leather, 3 pkgs furniture, 2 coops fowls, 1 horse, 1 buggy, 18 cases boots, 10 pkgs sundries.

THE CARIBOO EXCITEMENT.—The *Wilson G. Hunt* last evening brought down a number of passengers, the majority of whom were miners, some of whom seemed to have been well rewarded for their toil, judging from the heavy consignments which they were carrying. Also, some emigrants for Cariboo. The steamer was delayed for some time at Portland, by one of the freight cars having run off the track.—*Bulletin*.

SHIPMENT.—The following treasure was sent by the Pacific:

Wells, Fargo & Co.	$200,000
Ladd & Tilton	10,000
Balfour & Van Schuyver	2,000
Ladd & Tilton	50,000
Total	$262,000

THE MATCH.—The match game of base ball comes off today at Oregon City between the Pioneer Base Ball Club of this city and the Clackamas Club. The Pioneers leave on the Senator this morning and will be met at Oregon City by the "C" club and brass band. All hands will proceed together and then the match game will be played.

SENATOR'S RETURN.—The steamer *Senator* brought up evening 128 loaves fruit, 442 qr sacks flour, 8 bales woolen goods, 2 boxes cadse, 6 bbls pitch, 5 pkgs bedding, 1 chain and 3 pkgs sawmill. The sawmill is for Messrs. Moore & Drake of Walla Walla, and is intended for Walla Walla.

LARCENY CASE.—In Police Court yesterday morning, there was case excepting that of Gen. Birnbaum, charged with keeping a vicious dog. On account of some of the witnesses being out of town, the case was continued until Monday next.

ARRIVAL.—The steamer Couch arrives to-night and supplies the market with fresh oysters. Our Epicurean friends had the latest and freshest at the Gem, Merchants' Exchange.

BALL.—The ball at Oregon City went off finely. Notwithstanding the rain, about forty couple "chased the flying hours with flying feet."

ROBBED.—Wells, Fargo & Co.'s messenger brought last evening $10,000 in treasure.

MILITARY INTELLIGENCE.—The Vancouver *Register* publishes the following army intelligence:

We are informed by Colonel Blake, that a detachment of three hundred recruits have been sent from Carlisle Barracks, Penn., for service in this Military Division. It has not yet been determined to which regiment these recruits will be assigned.

Telegraphic information has been received at Department Headquarters, that a company of cavalry will be sent here immediately to operate against the hostile Indians east of the mountains. They probably belong to the first U. S. Cavalry, which is scattered all over the coast, four companies being in this Department, four in California, and four in Arizona. The headquarters of the regiment are at this point.

Lieut. Brown of the 2d Artillery, U. S. A., has been ordered to report to Col. Blake, Superintendent of the Recruiting service and will proceed to the Dalles for the purpose of establishing a rendezvous for the enlistment of recruits. It is quite probable that he will proceed to the Warm Spring Reservation for the purpose of enlisting Indians of the tribe located there, who are to serve as scouts against hostile Indians. The employment of these Indians has been authorized by recent legislation of Congress.

The numerous friends of General Steele will be glad to learn of his late promotion to the Colonelcy of the 20th Regiment of Infantry, this being one of the new regiments under the new army bill of the regular army. His gallant services in the field during the late rebellion have also been suitably recognized by the President, who conferred upon him the brevet of a Major-General in the regular army. Gen. Steele will remain on duty in this Department until next spring.

PERSONAL.—The friends and patrons of Stone & Norton will be pleased to learn that their success in business is such as to warrant Mr. Stone to go down to San Francisco to select much larger and more handsomer stock than they ever have on hand. We regret to learn that this popular gentleman leaves us even temporarily, but rejoice in his prosperity, and assure the public that Mr. Norton will use every exertion to please those who may favor the house with their patronage during the absence of his partner.

MRS. LOEWE.—Mrs. J. Loewe of this city will visit San Jose during the coming week with a very large and select stock of Bonnets, Hats, &c., for the Fair. Ladies may depend on finding everything in that line in this extensive collection of goods. See advertisement in this paper.

THE CHOICE OF ARMY are not quicker than the aroma which the Fragrant *Sozodont* imparts to the breath. Nor is the heart of the ivory nut whiter than the teeth that are cleaned daily with that matchless fluid.

Keeler Washington Hair Restorer makes old heads look young, and your nearest friends will be astonished at your youthful appearance. Try it.

THE CO. [illegible] IN THE ARMY.—"At inspection I noticed that a large proportion of the men's knapsacks—for such of Trochee, being generally used by men for Odds, etc." "*Brown's Bronchial Troches*" should be used upon the first appearance of a Cold or Cough, which, by neglect, may terminate in some incurable Lung."

DRAKE'S PLANTATION BITTERS
Have been of great service in making people healthy, and keeping them so. They should be found in every household.
They give tone to the stomach, vigor to the body, and restore dark doubts and unhappy feelings from the mind. They relieve pain and fortify the whole system against the attacks of disease.
There is nothing better to take "for the Stomach's sake" than the PLANTATION BITTERS.
They cure Dyspepsia, Heartburn, Indigestion, Drowsiness, Headache, Pain in the Side, Liver Complaint, and Rheumatic Pains, with magical power.
A good effect is felt at once upon making the first trial. No change of diet is necessary. Eat the best you can get and all you want. Follow our directions and you will soon feel
WELL, STRONG AND HEARTY.
A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.
They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They are the best Bitters in the world. They make the weak strong, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find *immediate* and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.
They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.
Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

Mustang Liniment.
OVER A MILLION DOLLARS SAVED!
Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. L. DOWNING.
Montgomery, Ala., June 17, 1859.
"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HEWITT,
Foreman American, Wells, Fargo's and Harnden's Express.
"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.
Gloucester, Mass., Aug. 1, 1866. ED. SEELY."
It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.
An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Lyon's Katharion.
It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.
This is just what Lyon's Katharion will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.
LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold everywhere at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.
CAUTION—See that the private U. S. Stamp of Demas Barnes & Co. is over cork of each bottle. None other is genuine.

Lyon's Flea Powder.
DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Special Message of Governor Woods on the Oregon Central Railroad.

Gentlemen of the Legislative Assembly:

Your attention is invited to the importance of the inauguration of a general system of internal improvements in our State. Where only biennial sessions of the Legislature are authorized by law, delay often, works incalculable injury. And now that we are in rapid process of development, with a constantly increasing population, it behooves us, looking to the future good, to give all necessary aid to such enterprises as tend to the permanent development of the vast resources of the State.

Long years of experience in a country without roads, and with a water communication, with the marts of trade, admitted by all to be totally inadequate to the wants of the people, has taught us the necessity for some system of intercommunication which will answer the demands of the people. With a railroad running through the Willamette Valley, and *via* Oakland, Roseburg, Jacksonville and Yreka, to and connecting with the Central Pacific Railroad in California—thus putting ourselves in direct and speedy communication with the city of San Francisco, and the demands of our sister State, in which we have a community of interest—we should reap a benefit which cannot well be estimated. Another route, equally as important as the first, now inviting attention, is the one running from the navigable waters of the Columbia river, *via* Boise City, to the valley of the Great Salt Lake, connecting with the Central Pacific Railway at Salt Lake City. To this route too much importance cannot be attached. In a commercial and military point of view, it is invaluable and indispensible; and it is gratifying to know that a bill, looking to its establishment, is now pending in Congress, and will doubtless become a law early in the ensuing session of that body. Legislation for the purpose of carrying that great enterprise into effect will be necessary, and it is hoped that you will not adjourn without making the required enactments. In his biennial message for the year 1864, my predecessor called the attention of the Legislature to the route first above named, and forcibly enumerated the advantages to be derived from such an enterprise; and, in accordance with the suggestions, an act was passed, the effect of which was to aid in its construction. But the amount provided for was so meagre as to offer no inducement to capitalists for investment. Had a more liberal spirit characterized our legislation at that time, we should, ere this, have been enjoying the advantages and sharing the profits of the undertaking. Let us profit by the experience of the past, and take hold of this great enterprise with that liberality and determination which shall insure its early completion. I would not encourage extravagance, but on the contrary, would bespeak a vigilant watchfulness over and a prudent and judicious expenditure of the public money; but it should be borne in mind that a niggardly parsimony is often the ruin of a people, while a providential liberality builds up a State.

Your attention is called to an act of Congress of July 25, 1866, donating twenty sections of the public lands for each mile of railroad and telegraph to be constructed from the City of Portland, Oregon, to and connected with the Central Pacific Railroad, in California, which lands are to be selected within thirty miles on either side of said road. This grant, though quite liberal, is wholly inadequate and will not, of itself, afford sufficient security to insure investment. Capital for the completion of this great work must come from abroad, and good policy requires that we should hold out inducements for investment. I am happy to be able to communicate to you that capitalists controlling ample means for the construction of the entire road proposed are now ready, and have signified their willingness to invest in the great enterprise as soon as the legislation necessary for such an investment can be had.

Under the General Incorporation Act, a corporation is about to be organized to be known as "The Oregon Central Railroad Company," composed of some of the most responsible and energetic business men of the State, whose purpose it is, if they can meet with proper encouragement, to immediately begin the great work. And I take the liberty to suggest that it would be well to make provision, by immediate enactment, by which through the above named incorporation the State shall be able to reap the benefits of the liberal donations by Congress, and also to make provision for the payment of the interest on the bonds of the Company, necessary to construct and put into operation, the first section of twenty miles of the road. Whatever may be the objections urged, it must be conceded that the State, looking to the future permanent wealth and prosperity of its citizens, is in duty bound to lend immediate and efficient aid to this great enterprise; and even if it is for the immediate benefit of all, it is eminently just and proper that all should contribute to its furtherance.

I deem it useless to enumerate the advantages to be derived from a railroad, since they must be apparent to all. The valleys of the Rogue River, Umpqua and Willamette are unequaled in richness of soil, and general resources for agricultural and manufacturing purposes; but can the farmers or the manufacturers afford to transport the products of their labor from those remote districts to Portland, at present our only market, and realize any profit? It is often tauntingly said by those from abroad that Oregonians are indolent—nothing can be more foreign from the truth. Experience teaches that mankind nowhere labor for the mere love of labor, *per se*, but for the profits to be derived therefrom. In this the citizens of Oregon are not unlike the rest of mankind. Give them easy and cheap transportation for the products of their labor, and the most rapid development of all the multiplied resources of our State will speedily follow.

A Railroad is a public necessity. The farmers need it; the merchants need it; the manufacturers need it; all classes need it. It would infuse new energy and enterprise into the people, cause our lands to be cultivated, our manufactures to be built up, increase the demand for labor, bring hither a vast population, add to our revenue and build up our cities. Its early completion will be a priceless benefaction. You are the representatives of the people. Their interests are in your keeping. Do your duty towards them, your State and your selves. Help to build the railroad. It is the people's just enterprise. Your labors will be your own lasting monument.

GEO. L. WOODS.

Executive Office, Salem, Oct. 6, 1866.

TRIAL TRIP OF THE OREGONIAN.—The *Oregonian*, a new steamship built by Laurance & Folks, of Williamsburg, started on her trial trip yesterday morning at 10 o'clock, from the foot of Grand street, East river.

At 9 o'clock about 150 invited guests had assembled on the steamer, patiently waiting her departure. About 10 o'clock the lines were cast off, and she steamed gracefully down the East river. The numerous ferry boats plying between Brooklyn, Williamsburg and New York saluted her with the steam whistles, the passengers cheering and waving their handkerchiefs. Everything bid fair for a pleasant trip, but when off Governor's Island the rain began to fall, and continued during the day.

The steamer sailed down the Narrows to Sandy Hook, going around the light ship, and returned up the bay to quarantine, where the guests who did not wish to continue their trip were transferred to a tug and landed at Pier No. 1, North river, where they arrived about five o'clock.

Notwithstanding the inclemency of the weather the guests amused themselves in the cabin in various ways until off Sandy Hook, when there was a scramble for state-rooms, especially by the fair sex. Some had partaken of too much breakfast; others, in their haste to get aboard, had not tasted food during the day. Of course, none of them were sea-sick—merely fatigued. On arriving off Sandy Hook, experiments were made with Captain Thomas Huntington's improved tackles for lowering life boats in a heavy sea, which were decidedly successful.

The *Oregonian* is 2,500 tons measurement, 270 feet in length on the water line; breadth of beam, 42 feet; depth of lower hold, 13 feet 8 inches; hight between decks, 7 feet 2 inches. She has locust stanchions the entire length of the ship, being diagonally strapped with iron bands 4½ inches thick from stem to stern. Her engines were designed by Erastus W. Smith, and under his superintendence, were constructed at the Allaire Works. Her cylinder is 82 inches in diameter; stroke of piston 12 feet; a surface condenser with 3,120 tubes affording 4,000 square feet of surface. Her wheels are 35 feet in diameter and 10 feet face. The buckets are divided into two sections, the wheel on one side of the ship set in advance of the one on the opposite side, half a space between buckets, the combination of the two giving a very steady motion to the vessel. The rims of the wheels are planed to a sharp edge before being bent, which materially reduces the friction while pushing through the water. On her trip yesterday she carried 26 pounds of steam to the square inch, her wheels revolving nineteen times per minute, which propelled her through the water at the rate of 15 knots an hour. She has two return tubular boilers, with seven furnaces each. Her engines are supplied with all the modern improvements, including Sickles' cut-off and valve-gear and Collins' patent condenser. The tube-heads of her condenser have been galvanized, the pillow-blocks of the main journals are arranged with improved keys, which admit of the brasses being removed when repairs are required without the usual disconnecting of heavy parts.

The building of the steamer was an individual enterprise. She is intended to ply between San Francisco and Portland, Oregon, and is owned by Captain Daniel F. Bradford and W. S. Ladd, of Oregon, and A. E. Tilton, of New York. If successful, another steamer will be immediately constructed. It is expected the *Oregonian* will arrive at San Francisco about Christmas.

The officers of the steamer are: John H. Briard, Captain; John Gallagher, Chief Engineer, and Smith P. Young; formerly of the steamer *Western Metropolis*, Pilot.

The cost of the vessel was $500,000, her engines having cost $200,000. Smith, of the Allaire Works, was requested by the owners to spare no expense to make her perfect in every particular.

The *Oregonian* will continue her trip for two or three days, it being the desire of the owners to encounter some rough weather to test her seagoing qualities.

A SINGULAR PHENOMENON.—One of the strangest phenomena ever witnessed, occurred at Stevenson's farm, near Petroleum Centre, Pennsylvania. At about 12 o'clock at night, the people were awakened by a terrible explosion, that shook the earth for a mile around. It was caused by the gas taking fire from a lamp. The well where the fire occurred (15 Stevenson farm) now being drilled, is about 350 feet deep. The drillers were changing tools, when a few drops of burning oil dropped from the lamp and set the gas on fire. It flashed up at once in a flame to the top of the derrick, where, by some strange cause, a draft was created the other way. The flame was sucked down and burst out at No. 34, producing a well, distant 200 feet. The derrick floor was completely shivered to pieces, but aside from that very little damage was done. The tank at No. 34 was covered for the purpose of saving gas. The shock partially raised the lid of the gas tank, and set the gas on fire. The engineer climbed on the top of the tank and extinguished the flames. The fire burning from the well outside the tubing was extinguished with some wet clothe.

ATTITUDE OF GENERAL GRANT.—The Philadelphia *Bulletin* says there is no reason why Gen. Grant's position should be questioned, and adds: There can be but little doubt that the country is indebted to him for the publication of the important dispatches of Gen. Sheridan on the subject of the New Orleans massacre. There was an evident purpose on the part of the President to suppress these damaging dispatches, and there is every reason to believe that Gen. Grant insisted upon their being given to the public, as a vindication of Gen. Sheridan.

FINANCE AND COMMERCE

WEEKLY REVIEW.

PORTLAND, FRIDAY, 5 P. M., Oct. 12th, 1866.

Business is good and the prices realized indicate a better feeling in almost every staple of goods sold. Large amounts of stock are being sold to country and up-river dealers. The demand for goods for our Northern trade is very large. Winter stocks are being pushed up the Columbia as rapidly as possible.

The steamer *Pacific* arrived on the morning of the 10th inst. and brought 470 tons merchandise.

We quote from the market report of McCraken, Merrill & Co., of San Francisco, the following interesting remarks on the manufactures of this coast:

"The growing importance of our local manufactures commands attention. We allude now to the Woolen, Cotton and Silk factories. Of the former there are now two large Brick establishments in full operation, one in process of erection and a fourth projected. The two City mills running consume how about 2,250,000 lbs of Wool annually, and when their enlarged works are completed they will need half as much more; when all four factories are underway we will then require at least five millions lbs of Wool annually in the manufacture of Blankets, Cassimeres, Flannels, Tweeds, etc. These goods, either made by the Pioneer and Mission Woolen Mills, have a reputation unequalled—the quality superior. Their Cloths, etc., are not only sold by the piece at the several city agencies, but each establishment is largely engaged in manufacturing Flannel Shirts, Drawers, etc; the local demand for these articles is in excess of the supply, owing to their great superiority over any imported. In addition there are four Woolen Mills, sending an limited supplies of Cloths, Cassimeres, etc., of prime quality; the bulk of their product is consumed at the North. These Factories consume annually about 1,250,000 lbs Wool. The Clinton Mill opposite this city has made a successful beginning in the manufacture of Cotton Sheetings—unbleached. The proprietors, however, are crippled as yet for want of the raw material. Thus far they have only been able to obtain about 20,000 lbs of California grown Cotton; the balance needed is now imported from Mexico, New York and Philadelphia. This Factory is now executing a small Foreign order for Piece Goods, and is also making a prime article of Cotton Twine, of which the local consumption is considerable. To the foregoing we add the local mill making Cotton Batting Wadding, etc., which Factory is filling an important field on this coast. To all these we add the Pioneer Silk Mill now under way on the corner of Pottery and Folsom streets. The proprietors, Nenstiel & Co., have produced the first piece of native grown Black Silk—ribbed—raised by L. Prevost, of San Jose. This piece of Silk was exhibited at the State Fair, and received favorable mention.

In regard to the new ruling of the Commissioner of Internal Revenue, we wish to call the attention of all interested, particularly as the telegram was the subject of a correction. This decision is of vital importance to all dealers. See the *Bulletin* of the 4th inst. this extra up the matter:

The following telegrams have been placed at our disposal:

SAN FRANCISCO, October 3, 1866.—Commissioner of Internal Revenue: Have canned goods sold and delivered prior to October 1st and taxes paid be now stamped by purchaser before sale? CUTTING & CO.

WASHINGTON, Oct. 3, 1866.—Cutting & Co.: No canned goods can be sold without stamps. THOS. HARLAN, Deputy Commissioner.

In the law relating to the collection of Internal Revenue, passed at the last session of Congress, there was a provision charging the trade of tanning cases upon the manufacturers a tax of 6 ⅌ cent. on sales to a stamp tax of 1c on every lb weighing 2 lbs or under, and 1c for every additional pound or fraction thereof. This law went into effect last Monday. So far as the charge from a manufacturer's to a stamp tax is concerned, there is no complaint, as the revenue from the latter is substantially the same as the former. The cause of complaint is that all canned goods sold by manufacturers to dealers prior to October 1st have paid the old tax of 3 ⅌ cent, must now pay an additional stamp tax, equal to that which has already been paid. The plain object of the law was to substitute the Stamp Tax for the tax on sales heretofore paid by the manufacturer. It is apparent that the Stamp Tax was to apply only to such Canned Goods as should be manufactured after the 1st of October, and in stock in the hands of the manufacturer, or other parties, on that day, as had not paid a manufacturer's tax. This is the common sense view of the subject, and one which is endorsed by every Front street merchant, the Deputy Collector of Internal Revenue to the contrary notwithstanding. The justice of this officer's ruling is not apparent, and will hardly stand if our merchants see fit to contest it. The mere matter of the cost of the stamps is of little consequence to the merchants as individuals. The great inconvenience and delay caused by unpacking, affixing and concealing the stamps on each tin of goods sold is a matter, of graver importance, and is a source of universal complaint.

Domestic Produce Market.

PORTLAND, October 12, 1866.

In the Grain market but little is doing in the city except for the small local demand. The transactions are confined to the mills and country dealers.

In Flour we notice a fair local demand, at quotations. We are exporting but the little called for at Victoria. Supply free and stocks accumulating.

The news from the East and Europe continues to be of bad harvests and great damage to crops. In relation to the last, an extensive miller sums up the United States crops as follows:

	Bushels.
Estimated product for this year	102,527,501
Required for one year's consumption and seed	81,000,000
Export, say	2,000,000 183,000,000
	83,472,499

By this statement we will have on hand September 1st 83,472,499 bushels Wheat and Flour—less than was consumed during the current year, including the small amount exported.

The prices at the Atlantic ports rule, consequently, high till they are too high to admit of ships either to Europe or the West Indies. We quote:

Wheat, new, ⅌ bushel	6@6 50

Cotton Goods and Woolen Market.

PORTLAND, October 12, 1866.

There is but little on which to remark since our last. Trade is good. The demand for Woolen Goods is fully equal to the supply. Cotton Goods are firm and will probably be held higher in consequence of the advance in the East:

OREGON WOOLEN GOODS.—*Blankets*, Oregon gray, No. 2, $7; do. white, No. 1 extra, $10; No. 1, $9; do. Dr. Hostetter's Stomach Bitters should be in the possession of everybody in the mining regions. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is powerful and powerful in its effects upon the system. In all cases of Diarrhœa, Dysentery, and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters. Sold by all druggists and dealers everywhere. sep20 HODGE & CALEF, 97 Front St.

SOMETHING NEW!

THE NEW LIGHT!

DANFORD'S

Atmospheric Coal Oil Gas Lamp!

ARTIFICIAL LIGHT OF SOME SORT, IS A UNIversal necessity. A Safe, Clean and Brilliant one is a Luxury—a luxury only enjoyed heretofore by those who live in large cities where Gas is used. Years of study and much capital have been exhausted in experiments to produce a lamp wherein the ordinary Kerosene or Coal Oil could be used without a chimney, and without unpleasant odor while in use. That fruitful source of expense, trouble and annoyance, the chimney, is in DANFORD'S COAL OIL GAS LAMP avoided; it is the most perfect Lamp and will entirely supersede all other Coal Oil Lamps; it is the cheapest artificial light that can be used, yielding the light of an ordinary six foot Gas burner for less than ½ cent per hour, or double the quantity of light of an ordinary Cabinet Lamp, for one third the cost. It will burn when turned down to a taper-light, ten hours for a cent, is free from smoke, can be carried from room to room and the wind will not blow it out. These LAMPS will be on exhibition and for sale at the Music and Art Gallery of Showman & Dufrene, corner of Morrison and First streets.
